Re: Annual Progress Reports: Sahara Mine, ACT/015/026;
Repete Mine, ACT/037/038; Hillside Mine, ACT/037/015;
Straight Creek Mine, ACT/017/018

Dear Mr. Smith:

This is in response to your letter of March 10, 1982, which requested the submittal of annual progress reports for the above referenced mining operations. None of these operations were active during 1981, and therefore no production or reclamation has occurred since the filing of the last annual reports.

Per our telephone discussion on March 18, I trust the above statement will suffice in lieu of a formal report completed on MR Form 3. Please contact me if you need additional information or wish to discuss the matter further.

Sincerely yours,

C.E. Baker

Manager, Regulatory Compliance

RE: 1981 Annual Operations
and Progress Reports
ACT/015/026
ACT/017/018
ACT/037/015
ACT/037/038

Dear Mr. Baker:

The Division is in receipt of your letter relative to the above operations. Since these mines have been in a suspended status for the past year, the Division waives the requirement for formally filing an MR Form 3.

Please be reminded of Section 40-8-21 and Rule M-7 of the Utah Mined Land Reclamation Act regarding suspension and termination of operations beyond a two (2) year period. I would appreciate receiving an update on the status of these operations with respect to any anticipated extension in excess of two (2) years, particularly the Straight Creek Mine which suspended activity during May of 1980, in order that the Division may perform a site inspection and take whatever action may be appropriate.

Your cooperation is appreciated. If you have any questions, please call.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF
MINED LAND DEVELOPMENT
